National Contact Point.

What is Horizon

The GREENET project has received funding from the EU Horizon Europe programme under Grant Agreement No 101069604

Horizon Europe is the EU's funding programme for research and innovation from 2021-2027 with budget of €95.5 billion.

Science & technology

- Fuel EU's scientific and technological excellence and the strengthen the ERA

Society

- tackle policy priorities, including green and digital transitions and SDGs

Economy

- boost Europe's innovation uptake, competitiveness and jobs

Greenet

The network of Horizon Europe Cluster 5
National Contact Point.

HE Rules for Participation

The GREENET project has received funding from the EU Horizon Europe programme under Grant Agreement No 101069604

Entities eligible for participation

Art. 18: «Any legal entity, regardless of its place of establishment, including legal entities from non associated third countries or international organisation may participate in actions under the Programme, provided that the conditions laid down in this Regulation have been met together with any conditions laid down in the work programme or call»

Entities eligible for funding

EU COUNTRIES

- Member States (MS) including their outermost regions
- The Overseas Countries and Territories (OCTs) linked to the MS.

NON-EU COUNTRIES

- Countries associated to Horizon Europe (AC)
- Third countries identified in the **HE List of Participating Countries** on EU Funding and Tenders Portal.
- Other countries when announced in the call or exceptionally if their participation is essential

SPECIFIC CASES

- Affiliated entities established in countries eligible for funding.
- EU bodies
- International organisations (IO):
 - International European research organisations are eligible for funding.
 - Other IO are not eligible (only exceptionally if participation is essential)
 - IO in a MS or AC are eligible for funding for Training and mobility actions and when announced in the call conditions

Horizon Europe's openness

- Horizon Europe 'by-default' as open as possible to almost all countries
- Almost any project consortium can include an entity from third country partner (with or without EC funding) unless specified otherwise
- Non-discriminatory: individual researchers and innovators of any nationality can apply for grants (MSCA scholarships, ERC grants...)
- Countries' Association to Horizon Europe is the deepest way of integration however it is not a prerequisite for participating to the Programme

Third countries

- All countries that are neither EU Member States nor Associated Countries to Horizon Europe
- Entities from certain 3rd countries may be automatically eligible for funding (see **General Annex B or Horizon Europe List of Participating Countries on EU Funding and Tenders Portal for up-to-date information**)

Targeted international cooperation actions can be (wording important: e.g., welcome, strongly welcome or requested):

- In topics of strategic thematic areas
- For geographical areas (countries/regions), Initiatives: African Union, Mediterranean countries, Latin-America-Caribbean countries
- For countries participants in multilateral initiatives (e.g., Mission Innovation)
- Collaboration with key individual partner countries

Access to EU funding and modalities

Automatically eligible for EU funding (“Beneficiaries”)

- Low- and middle-income third countries (see [General Annex B](#))
- Countries associated to Horizon Europe

Non-associated third countries not automatically eligible for EU funding (**Associated partners**): EU Funding exceptionally provided (**beneficiaries**)!

- High income countries according to the World Bank classification (not listed in annex B)
- Exceptions on a case-by-case basis + specified in topic calls
- **Complementary funding mechanisms (CFM)**: Guide on CFM on the Funding &Tenders Portal: [Complementary funding mechanisms in third countries and territories](#) (Australia, Brazil, Canada, India, Japan, New Zealand, Mexico, China, Monaco, South Korea, Switzerland, Taiwan)

Find flagged topics on International Cooperation on the Funding and Tender portal

The screenshot displays the Greenet portal's search interface. The top navigation bar includes links for HOME, SEARCH FUNDING & TENDERS (highlighted with a red box), HOW TO PARTICIPATE, PROJECTS & RESULTS, WORK AS AN EXPERT, and SUPPORT. The main search area is titled 'Search funding & tenders' and shows 70 items found. On the left, filters for Programme (Horizon Europe (HORIZON)), Programme part, Mission, and Destination are visible. The 'Cross-cutting priority' section (circled in red) lists 'International Cooperation' (highlighted with a yellow box). A blue callout box points to this selection, containing a list of topics: International Cooperation, Africa, and Mediterranean. The search results on the right show various topics with 'Open for submission' and 'Grant' buttons.

Cluster 5 Work Programme 2025

- aims to **fight climate change** by better understanding its causes, evolution, risks, impacts and opportunities, and **by making the energy and transport sectors climate neutral, environment-friendly, efficient, competitive, smarter, safer, resilient and useful** for citizens and society.
- Cluster 5 supports the EU's strategic objectives through activities included in the work programme (incl. Co-Programmed Partnerships) and through the support of Institutional European Partnerships which are implemented through dedicated structures.
- R&I activities under CL5 will contribute to the objectives of the European Green Deal related to the Climate Pact, the Clean energy strategy, the Strategic Energy Technology (SET) Plan, the Strategic Transport Research and Innovation Agenda (STRIA), European Circular Economy Action Plan

List of topics explicitly mentioning international coop Cluster 5 2025 Work Programme (1/4)

- **HORIZON-CL5-2025-06-D1-01: Climate simulations data and knowledge for optimal support of IPCC Assessments and International Policy:** Beneficiaries may provide financial support to third parties. This support can be provided in the form of grants to researchers from the Global South countries
- **HORIZON-CL5-2025-06-D1-02: Advancing Earth System Models to increase understanding of Earth system change:** International cooperation is encouraged, to promote capacity and consensus building, for example, by training early career researchers
- **HORIZON-CL5-2025-06-D1-04: The attribution to climate change, and improved forecasting of extreme and slow-onset climate- and weather-related events and their impacts:** International cooperation is encouraged, in particular with the Global South in the context of scientific capacity building, disaster risk reduction and strengthening of climate resilience
- **HORIZON-CL5-2025-06-D1-06: Fostering equity and justice in climate policies – Societal Readiness Pilot:** The consortium must include as beneficiary or associated partner at least three independent legal entities established in three different low or middle-income countries.(...)The research should be conducted through close collaboration between research teams from Europe and low or middle-income countries, hence international cooperation is required (see eligibility conditions)

- **HORIZON-CL5-2025-06-D1-07: Implementing the climate action pillar of the EU-African Union Partnership on Climate Change and Sustainable Energy:** If eligible for funding, legal entities established in the African Union member states may exceptionally participate in this CSA as beneficiary or affiliated entity. In addition, international organisations with headquarters in a European Union Member State, Horizon Europe Associated Country or an African Union Member State are also exceptionally eligible to participate (and eligible for funding). At least 40% of the beneficiaries must be legal entities established in the African Union Member States
- **HORIZON-CL5-2025-02-D2-03: Sustainable processing and refining of raw materials to produce battery grade Li-ion battery materials (Batt4EU Partnership):** To increase EU resilience in raw materials supply chains (...), participation in this topic is limited to legal entities established in Member States, associated countries, OECD countries, African Union Member States, MERCOSUR, CARIFORUM, Andean Community and countries with which the EU has concluded strategic partnerships on raw materials as well as trade (or equivalent, including the new Clean Trade and Investment Partnerships) agreements containing raw materials cooperation provisions (i.e., Energy and Raw materials chapters)
- **HORIZON-CL5-2025-02-D2-08: Coordinated call with India on waste to renewable hydrogen:** The project must include at least one work package for coordinated activities with the linked project awarded by the Ministry of New and Renewable Energy of the Government of India (MNRE)

- **HORIZON-CL5-2025-02-D3-15: Building a Long-Term Africa Union (AU) and European Union (EU) Research and Innovation joint collaboration on Sustainable Renewable Energies:** *If eligible for funding, legal entities established in the African Union member states may exceptionally participate in this Coordination and Support Action as beneficiary or affiliated entity. In addition to the standard eligibility criteria, at least 40% of the beneficiaries must be established in African Union member states*
- **HORIZON-CL5-2026-02-D3-24 New CO2 capture technologies:** *In particular for DAC, international cooperation with participating countries of the Mission Innovation Carbon Dioxide Removal Mission is encouraged*
- **HORIZON-CL5-2025-02-D3-25: Effects of CO2-stream impurities on CO2 transport and storage:** *International cooperation is encouraged, in particular with projects or partners from the United States*
- **HORIZON-CL5-2025-04-D5-19: Knowledge sharing and dissemination to support road transport R&I in EU and around the world increasing global EU competitiveness :** *In the field of international cooperation in line with the UN SDGs and to support the European industrial competitiveness for the future road transport sector (...) actions in alignment with US and project in electromobility, namely in in Africa, Asia and Latin America (synergies with GG & UN GEF)*

- **HORIZON-CL5-2026-01-D6-03: Next-generation environment perception for real world CCAM operations: Error-free and secure technologies to improve energy-efficiency, cost-effectiveness, and circularity (CCAM Partnership):** To achieve the expected outcomes, international cooperation is highly relevant, considering the lessons learned in this area (for example, from robo-taxi and freight transport trials in the US and China). Activities should foster links between the European ecosystem and relevant stakeholders around the world, in particular with Japan and the US but also with other relevant strategic partners in third countries
- **HORIZON-CL5-2026-01-D6-04: Integration of human driving behaviour in the validation of CCAM systems (CCAM Partnership):** To achieve the expected outcomes, international cooperation is encouraged with research stakeholders in Japan and the US but also with other relevant strategic partners in third countries
- **HORIZON-CL5-2026-01-D6-05: Approaches, verification and training for Edge-AI building blocks for CCAM Systems (CCAM Partnership):** To achieve the expected outcomes, international cooperation is encouraged in particular with Japan and the US but also with other relevant strategic partners in third countries
- **HORIZON-CL5-2026-01-D6-14: Predicting and avoiding road crashes based on Artificial Intelligence (AI) and big data:** Research is expected to develop recommendations for updates to relevant standards and legal frameworks. International cooperation is advised, in particular with projects or partners from the US, Japan, Singapore and Australia

Greenet

The network of Horizon Europe Cluster 5
National Contact Point.

Partnering & Networking

The GREENET project has received funding from the EU Horizon Europe programme under Grant Agreement No 101069604

GREENET in a nutshell

- European network of National Contact Points (NCPs) for Cluster 5 “Climate, Energy and Mobility
- Funded by the European Commission under the Horizon Europe Framework Programme for Research and Innovation.
- Launched on the 1st Jul. 2022 - Closing on 31st Dec. 2027
- 19 beneficiaries + extended CL5 NCPs community

The **aim of GREENET** is to improve the professionalisation of the CL5 NCPs:

- Raising the general standard of support to applicants by **enhancing the competences of the Cluster 5 NCPs**.
- **Raising applicants' awareness on HE funding opportunities as well as their knowledge** by the provision of a **suite of tools** to better tackle the challenges posed by the CL5 of HE.
- **Lowering the entry barriers** for newcomers and participants from widening countries.
- Increasing the quality and inclusiveness of international consortiums **supporting matchmaking among the CL5 applicants**.

Matchmaking events

A matchmaking event is a quick and easy way to meet potential cooperation partners for Horizon Europe proposals, organized through B2match tool.

- Registration
- Publish a 'project cooperation' to showcase your needs and/or pitch your skills or project ideas
 - What can you include in a project cooperation:
 - Title
 - Description
 - Project stage
 - Topic/Call
 - Type of cooperation sought
- Browse profiles of attendees
- Send & receive meeting requests
- Matchmaking Event

You have the chance to also pitch your skills and competencies or project ideas against one or more topics among those included in the calls, which can be selected during your registration phase.

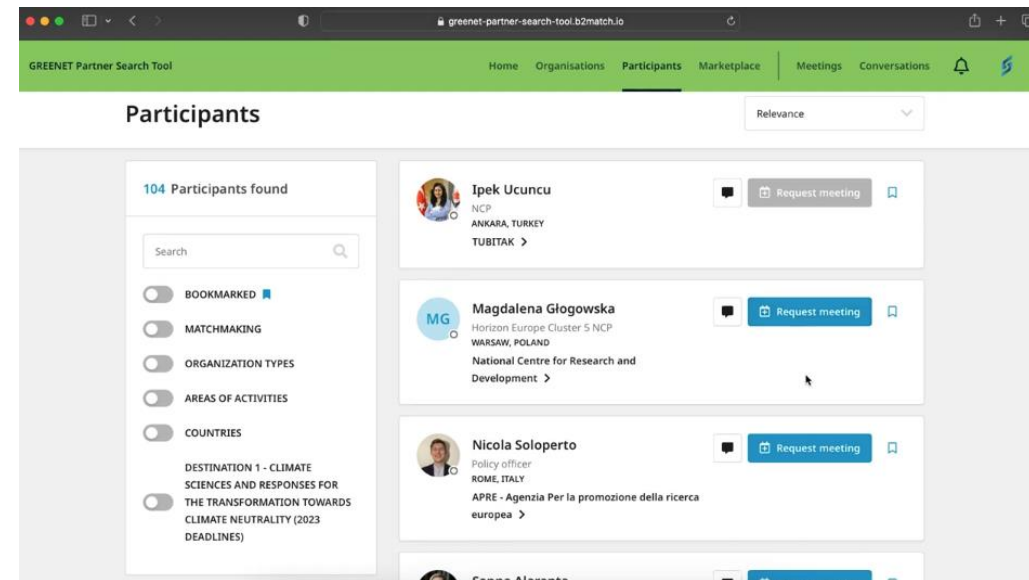

Support videos

In order to make the most out of all these networking opportunities, **it is crucial to understand how to use the platform in order to make one's expertise more visible and to better target potential partners.** GREENET project has made this **series of videos** will help you fine-tune your description and cooperation profile in order to optimize your networking activities.

Check them out!

1. [How to make most out of a brokerage event](#)
2. [Profile validation](#)
3. [How to set your availability](#)
4. [How to create an opportunity](#)
5. [How to find a right match](#)
6. [How to chat and book a meeting](#)
- 7. [Things to check](#)

Thematic focus Cluster 5 Work Programme

The event focuses on the following Horizon Europe – Cluster 5 calls 2025:

- Climate sciences and responses.
- Cross-sectoral solutions for the climate transition.
- Sustainable, secure and competitive energy supply.
- Efficient, sustainable and inclusive energy use (no topics on call 2025).
- Clean and competitive solutions for all transport modes.
- Safe, Resilient Transport and Smart Mobility services for passengers and goods.
- Social Sciences and Humanities.

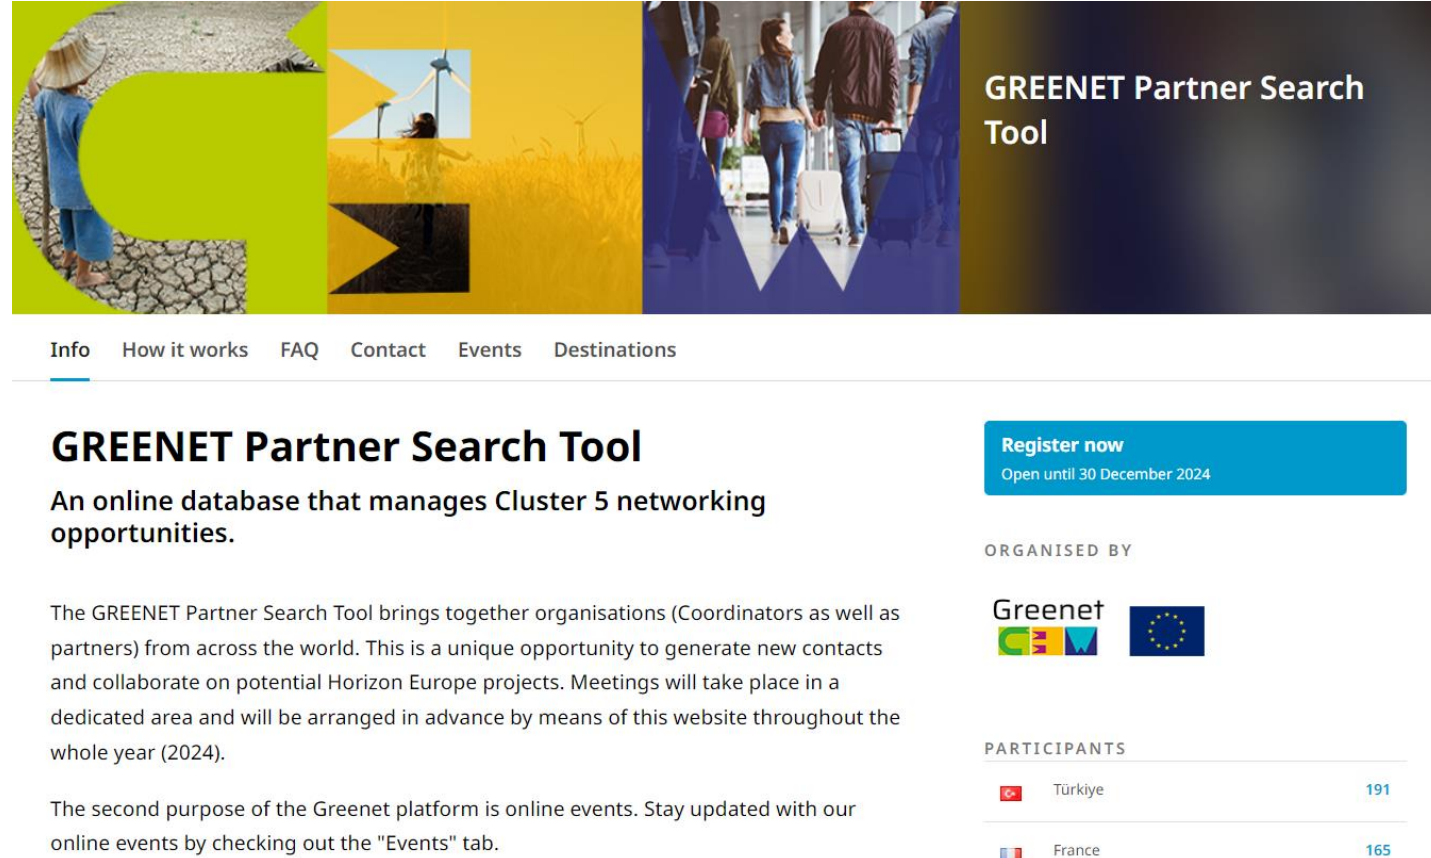

Brokerage event

GREENET PARTNER SEARCH TOOL

- The PST offers a platform for networking among HE CL5 applicants, both potentially acting as coordinators and/or partners, **supporting the creation of consortia** for CL5 open calls for proposals
- **permanently** active
- available via **GREENET website**
- **<855 registered profiles**

The screenshot shows the homepage of the Greenet Partner Search Tool. The header features a navigation bar with links: Info, How it works, FAQ, Contact, Events, and Destinations. The main content area includes a large title 'GREENET Partner Search Tool' and a subtitle 'An online database that manages Cluster 5 networking opportunities.' Below this, a paragraph describes the tool's purpose: 'The GREENET Partner Search Tool brings together organisations (Coordinators as well as partners) from across the world. This is a unique opportunity to generate new contacts and collaborate on potential Horizon Europe projects. Meetings will take place in a dedicated area and will be arranged in advance by means of this website throughout the whole year (2024).' A second paragraph mentions online events: 'The second purpose of the Greenet platform is online events. Stay updated with our online events by checking out the "Events" tab.'

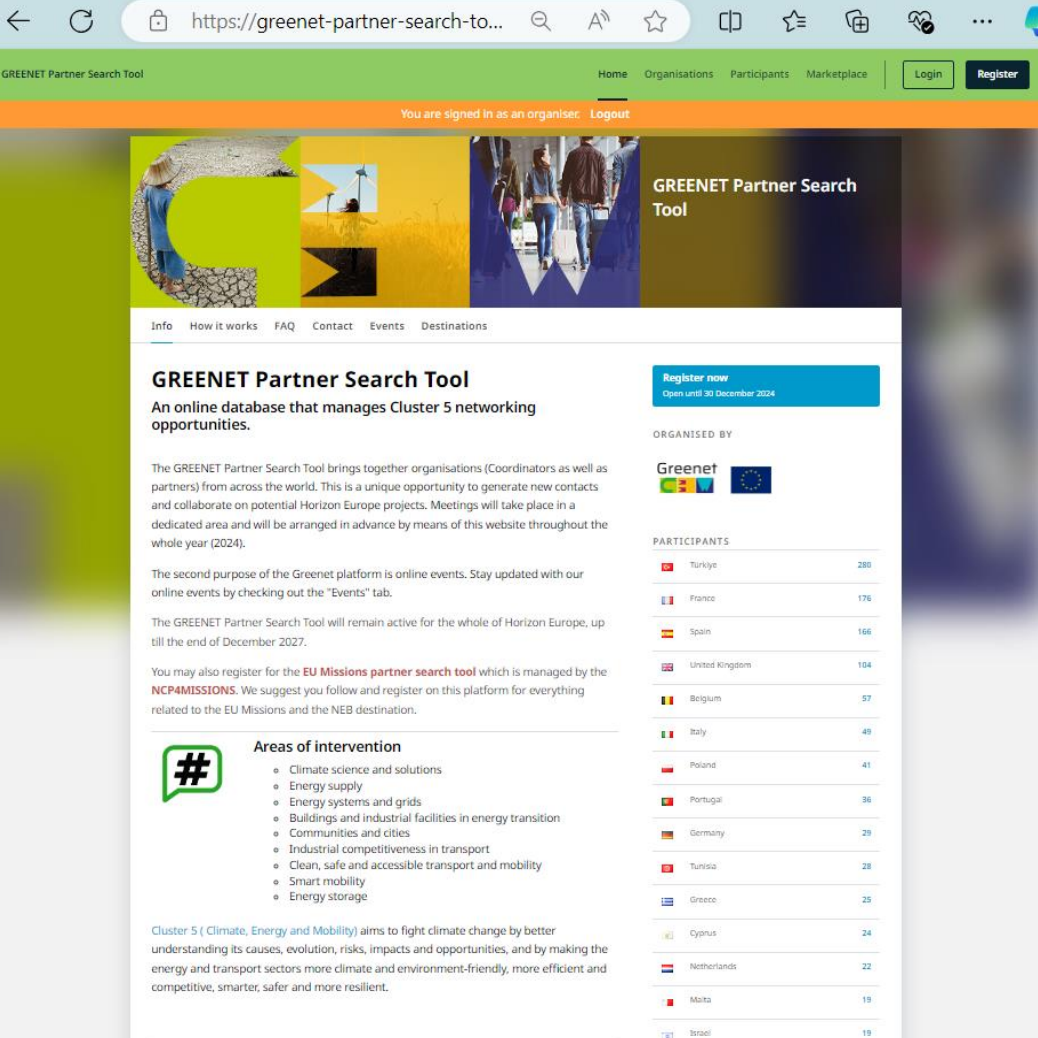

On the right side, there is a blue button labeled 'Register now' with the text 'Open until 30 December 2024' below it. Below this, it says 'ORGANISED BY' followed by the Greenet logo and the European Union flag. At the bottom right, there is a section titled 'PARTICIPANTS' showing a list of countries and their respective number of participants:

Country	Participants
Türkiye	191
France	165

GREENET Partner Search tool provides possibility:

- for participants to find consortia
- for consortia to find partners
- to provide the functionality to set meetings with prospective partners, if registered
- to overview events relevant to cluster 5 areas

GREENET Partner Search Tool

An online database that manages Cluster 5 networking opportunities.

The GREENET Partner Search Tool brings together organisations (Coordinators as well as partners) from across the world. This is a unique opportunity to generate new contacts and collaborate on potential Horizon Europe projects. Meetings will take place in a dedicated area and will be arranged in advance by means of this website throughout the whole year (2024).

The second purpose of the Greenet platform is online events. Stay updated with our online events by checking out the "Events" tab.

The GREENET Partner Search Tool will remain active for the whole of Horizon Europe, up till the end of December 2027.

You may also register for the **EU Missions partner search tool** which is managed by the **NCP4MISSIONS**. We suggest you follow and register on this platform for everything related to the EU Missions and the NEB destination.

Areas of intervention

- Climate science and solutions
- Energy supply
- Energy systems and grids
- Buildings and industrial facilities in energy transition
- Communities and cities
- Industrial competitiveness in transport
- Clean, safe and accessible transport and mobility
- Smart mobility
- Energy storage

Cluster 5 (Climate, Energy and Mobility) aims to fight climate change by better understanding its causes, evolution, risks, impacts and opportunities, and by making the energy and transport sectors more climate and environment-friendly, more efficient and competitive, smarter, safer and more resilient.
